

Transport Refrigeration Unit Airborne Toxic Control Measure ULETRU Extension Application Form

This form may be used by a Transport Refrigeration Unit (TRU) owner to apply for "ULETRU Extension" under the TRU Airborne Toxic Control Measure (ATCM) (ref. Title 13, California Code of Regulations, section 2477, subsection (e)(1)(F)). TRU Advisory 08-12, ULETRU Compliance Extension Awarded for Early LETRU Compliance, explains this in more detail. TRU owners that meet the Low-Emission TRU (LETRU) in-use performance standard earlier than required may apply to the California Air Resources Board (ARB) Executive Officer for an extension (delay) in the subsequent Ultra-Low-Emission TRU (ULETRU) in-use performance standard compliance date for the same TRU. This form must be submitted to ARB at least 30 days prior to the normal ULETRU compliance date for the affected TRU.

Instructions: Complete sections A, B, C, D, and E (below). A federal tax identification number (EIN) is required.

A. TRU or TRU Generator Set Owner Company Information:

Business Name:		EIN:	
Mailing Address:			
City:	State/Province:	Zip	
Country:	Telephone:		
Name of Primary Contact Person (last, first, m.i.):			
Contact Person Title:		Contact Email Address:	

B. TRU/TRU Generator Set Information

Unit Type (check one box to the right):	<input type="checkbox"/> TRU
	<input type="checkbox"/> TRU Generator Set
Unit Manufacturer:	Unit Model:
Unit Model Year:	Unit Serial Number:

C. Engine Information

Engine Manufacturer:		Engine Model:	
Engine Model Year:		Engine Serial Number:	
Is this a rebuilt engine?	<input type="checkbox"/> Yes <input type="checkbox"/> No	Rebuilt to what emissions Tier? (from supplemental label)	
Installation date (if engine is a replacement engine):			

D. Compliance Status: Provide if Engine Was Retrofit with a Verified Diesel Emissions Control Strategy (VDECS)

VDECS Manufacturer Name:		VDECS Family Name:	
VDECS Serial Number:	Manufacturer Date (mm/yy):	Installation Date:	
Installer Company Name::			
Installer Address:			
City:	State/Province:	Zip:	
Country:	Telephone:		

Transport Refrigeration Unit Airborne Toxic Control Measure
ULETRU Extension Application Form

E: Certification:

I certify under penalty of perjury that the information provided in sections A, B, C, and D (above) is true and correct, and that early compliance with LETRU meets all of the following qualifying criteria:

1. Early compliance with the LETRU in-use performance standard provided real emission reductions. The action taken resulted in a reduction in the particulate matter emission rate of more than 50 percent from the above TRU.
2. Public funds were not used for early compliance with LETRU (e.g. Carl Moyer Program). No public funding of any kind was used to meet the LETRU in-use performance standard.
3. If a new replacement engine was used to meet the LETRU in-use performance standard, the engine manufacturer of the replacement engine is not using early compliance with engine emission standards in U.S. EPA's Averaging, Banking, and Trading Program (or California's equivalent program).

Upon receipt of this agreement, ARB will send a confirmation e-mail to the owner. The owner of the equipment (as identified on this form) may contact ARB (888-TRU-ATCM or 888-878-2826) to obtain or verify registration information and ULETRU Extension status. If the TRU/TRU Generator Set owner has applied for and has been issued an ARB Identification Number (IDN), the owner may also access the ARB Equipment Registration System (ARBER) and view equipment compliance status by entering the IDN, VIN, or vehicle license number on the Public Access page of the website. The online registration system website address is:

<http://www.arb.ca.gov/arber/arber.htm>.
